About Me

Motivated and detail-oriented, with about 5 years of experience in the tech sphere. Eager to apply my current and ever-growing skills for programming, designing, creating and completing websites and applications. Special interest in modern UI/UX design. Sharp, enthusiastic learner with a keen eye for aesthetics. Enjoys modern tech and has a passion for the arts.

Interests and Hobbies

I love art, music, literature and photography. In my free time I often participate in volunteer work. I hold multiple high level ABRSM certificates, and tutor piano to beginners/intermediates. I am also an avid reader and enjoy everything from classical to modern literature, with a marked interest in theology. I also enjoy sketching, painting and interior design.
